

AVIATION HANGARS AND MRO SUPPORT

If you need enclosed commercial hangar space or a controlled MRO building:

Signature Structures LLC design/builds tension membrane structures for aircraft ranging in size from Cessna's to 767s, military planes including the C-135, C-17 and more.

We provide engineered solutions for the structure and door system utilizing accordion, bi-fold or specialty doors from recognized industry leaders. We have complete packaged hangar systems with bi-fold doors already designed for most regional and corporate jets.

Our structures can be equipped with interior liner systems, insulation up R-30, HVAC and lighting systems to specification.

Engineering Packages include structural review and evaluation, complete system integration and foundation designs meeting local loading conditions.

Applications

- Commercial Hangars
- Military Hangars
- Private & Corporate Hangars
- Baggage Handling Facilities
- Emergency Response Facilities
- Maintenance, Repair, Operations

Existing Fabric Structure Owners
